COLMER ANNOUNCES FORMALLY FOR RE-ELECTION TO CONGRESS

Congressman Bill Colmer today formally announced his candidacy for re-election in the June 2 Primary. His statement follows:

To the Sovereign voters of the 5th Congressional District of Mississippi:

As is generally known, I qualified with the Secretary of State and paid my filing fee of \$200 to the Secretary of the Mississippi Democratic Executive Committee on March 6 as a candidate for re-election to Congress from the Fifth Congressional District. Although this was carried by the press at the time, I now desire to follow my long-established custom by making formal announcement of my candidacy for re-election to this high office.

I seek re-election that I may continue to use my best efforts to:

(1) Contributing to the progress of South Mississippi and the well-being of its citizens.

(2) Fighting against the ever-increasing efforts of the self-styled liberals to concentrate all the power of the government in Washington at the expense of the States and the liberties of the people.

(3) Bringing about a balanced budget and a sound fiscal policy and, thereby, avoiding ruinous inflation and national bankruptcy.

(4) Bringing an end to the Foreign Aid Program, and

(5) Further continuing my fight against the vicious Civil Rights Bill now being considered in the Congress. For, it is obvious that regardless of the outcome of the present battle, further and possibly more stringent efforts will be made in the next Congress to forcibly integrate the races.

CONGRESSIONAL SENIORITY The Congress operates on the basis of seniority. It takes 15 to 20 years for any new Congressman to obtain a ranking position on an important Committee, regardless of ability. I will be the 6th ranking Member of the 435 Members in the new House. I am the Vice-Chairman of the powerful Rules Committee through which all important legislation from other committees must clear before reaching the Floor for consideration. In view of the attitude toward our State which prevails in Washington, it can be said safely that Mississippi has no chance to have another of its Congressmen assigned.

MYSTERY THRILLER OPENS APRIL 30 AT LITTLE THEATRE

The longest continuous run play of all times (11 years still running in London) will be the opener at the Bay St. Louis Little Theatre beginning Thursday, April 30, and closing May 2, curtain time, 8:15 p. m.

This popular "who done it," "The Mouse Trap," with much comedy interspersed by individual characters, was penned by the highly acclaimed contemporary writer of mystery fiction, Agatha Christy.

Under astute and sensitive interpretation of veteran director, Paul White, the plot and characters unfold to the delight and entertainment of the audience.

A well screened cast containing some new talent on our local boards, are promising the usual excellent season opening presentation.

Conforming to their standard of set designs "par excellence," Technical Director, N. L. (Turk) Carter, and vice president, Harold Powell, have nearly duplicated the original set as seen on the London stage. This was no mean feat considering limitations of our small (but good) theatre.

Setting the stage are Ann Ashman, Stage Manager, assisted by Turk Carter.

A newcomer to our group, but with a wealth of experience in all fields of theatre work is Ben Baker, who will handle sound effects, curtains, and lighting. Ezeldad Ling is prompter, with make-up crew consisting of Margie and Sidney Woods.

The cast includes Liz Whitfield, Alan Terrill, Bill Fray, Alice Tie-mann, Philip Allison, Nora Bolton, Herbert Winckelmann, Edward Muns.

Memberships will be sold at the door to accommodate those who have not yet purchased theirs for the 1964 season.

EDWARD A. (EDDIE) KHAYAT ANNOUNCES FOR CONGRESSMAN

We are authorized to announce the candidacy of Edward A. Khayat, of Moss Point, for the office of Congressman of the 5th Congressional District of Mississippi, subject to the action of the Democratic Primary election, in June.

Mr. Khayat's statement to the voters follows:

To the Citizens of the Fifth Congressional District:

Please accept this advertisement as my formal announcement of my candidacy for the office of Congressman, Fifth District, State of Mississippi. I am positive that I am fully qualified to serve the one-half million citizens in our district. My record of 32 years of public services composed of 12 years of teaching and coaching, 18 years as a bank official, and 16 years as a member of the Jackson County Board of Supervisors, gave me the opportunity of actively participating in major improvements of the entire area.

First and foremost in the minds and hearts of millions of Americans is this abominable legislation called civil rights. I am against any and all civil rights legislation. Nowhere in the Constitution has it ever been written that the Congress shall legislate the human, moral, and spiritual resources of this nation. I've always believed that this is a nation of the people, by the people, and for the people.

The people of the United States created the Congress by electing by secret ballot the Representatives and Senators. This same Congress created the Supreme Court and provided that nine justices be appointed. Here is the real cause of all our troubles. I cannot understand how so much power has been placed in the hands of nine men.

If you elect me to Congress, I promise you an all out fight to put in to law curbs and restrictions on the Supreme Court. You and I know that this "tail is wagging the dog." We must stop them now. I further promise an all out fight for a thorough investigation of the so-called "executive order" powers held by the President. The whole scheme of our government was created and is designed on a system of checks and balances. The Judicial and Executive departments have gone far beyond the duty assigned to them. I am young enough, strong

"YOUR PROTECTION AGAINST FIRE"

Recently two total destruction fires, besides body injury, have proved the need of a Bay St. Louis Volunteer Fire Department.

(Properly equipped). The Sonny Cuevas and the Bill Heverling dwellings, complete losses, show the need, WON'T YOU HELP!!

The Bay St. Louis Volunteer Fire Department has been organized for several years and has worked very efficiently along with the local city fire department, but due to the lack of its own equipment, they have been restricted strictly to the city area. Citizens outside of the city of Bay St. Louis, until the formation of the Waveland Volunteer Fire Department, were completely without fire fighting assistance, and even that is limited. Now With Your Help, besides serving with the regular Bay St. Louis Fire Department, the volunteers will be able to answer calls outside the city limits.

The First Week of May has been designated for your helping period. During that week volunteers will call at your home or place of business for a donation. Please Give Generously. Let's all help to buy an engine with which the volunteers will not only assist in local city fires, but also service people in the outlying area and also into Waveland and work along with that very active Volunteer Fire Department.

Besides cash donations, volunteers are needed in the department. If you are interested in becoming a volunteer, please contact any of the following: Russell, J. Elliott, Volunteer Chief; Harold Sauter, Assistant Chief; Clayton Thompson, Secretary; Joseph Kerslake, Treasurer.

by hand or hand grabbers. These fish are not to be mistaken. There is a small black spot in the middle of the eye. There are many of these fish in the bay, and they are a delicacy. If you haven't tried them, better do so. They are caught at night and with a head light. The commonly known bull frog is the best for eating.

Now is the time of the year for catching turtles, another excellent delicacy when eaten with spaghetti. The most common around here are the Diamond Back Terrapin, snapping turtle and the soft shell turtle. They are caught mostly in turtle traps in lakes and on shallow spots in bays. Some are caught by fishermen with cast nets. We have caught them on a number of occasions. One caught last year weighed 65 pounds. It takes a good line and the know how to land large turtles. Soft shell turtles are rather scarce and seldom caught.

The Jack Croville, known very little by salt water fishermen, is often confused with the pompano but has a distinct black blotch on the gill covers. Average weight is about a pound but runs to 10 pounds. They are only fair for eating and are caught the year round in the Gulf of Mexico.

Perre Quintini became a father for the sixth time last week. It hasn't stopped Perre from going fishing. He says he has to get something to feed his little peeps.

An Iranian fisherman was jolted recently when a frozen fish he was selling wiggled in its package, squirmed and came back to life. The fish was frozen for 28 days before it began to move, said fisherman Gholam Reza Safarzadeh. The fish was said to have been caught in the Caspian Sea, frozen, packed and shipped out to Tehran. It is now swimming around in a jar on Gholam's fish stand. (New Orleans Times-Picayune.)

Of interest to thousands of people the "World's Championship Pirouette Races" will be held on Sunday, May 17 at Lafitte, La., at Bayou Barataria and Goose Bayou under the auspices of the Lafitte Yacht Club. The event is free of charge to spectators. The races are interesting and worth seeing.

Russell Jones and yours truly took a boat ride up Jordan River Monday looking fishing conditions over. The water is still a little on the muddy side, but is clearing fast. Russell expects to catch up on his fishing.

Clarence Schindler says he has just completed his new home on Green Meadow Road and that he expects to do some real fishing. He wants his buddy George Pre-witt to stop walking his dog and go with him. Better go George and enjoy yourself.

Ed Virgilio who likes both fishing and hunting, says he has the time now and expects to get back to his favorite sports.

O. R. (Doc) Bradley and C. B. (Pat) Patterson who enjoy all kinds of sports, especially fishing and golfing are making great plans to do both. You can find plenty of both around here, boys.

LOCAL SPORTSMAN

MORRIS MILLER Morris, like most of us is retired and spends his time participating in his favorite sport, fishing. Practically a newcomer here, he has found fishing good and is always ready to give it a try. He enjoys both fresh and salt water fishing. Like all of us, he is complaining about the bad fishing conditions right now.

COLMER ANNOUNCEMENT

(Continued From Page One)

ed to this key committee in the foreseeable future.

PLATFORM
My platform is my record. That record has been endorsed repeatedly by South Mississippians. Obviously, the three other candidates do not approve of that record. Naturally, their dissatisfaction is shared by certain national groups who do not subscribe to our philosophy of government. Thanks to our American system, anyone who shares that dissatisfaction has the privilege of voting for any of the three to represent them.

With no desire for self-aggrandizement or other selfish motive, I humbly and respectfully request the high privilege and opportunity to serve you further in this period of the Nation's crisis both at home and abroad.

BILL COLMER

Congressman Colmer is dean of the Mississippi Delegation. He is a member of the National Forest Reservation Commission, consisting of two Members of the House, two members of the Senate and three Members of the President's Cabinet.

The Mississippian also serves as Chairman of the Southern Congressmen in the House, originally set up to oppose civil rights legislation - a position similar to that by Senator Russell of Georgia in the Senate.

In 1957 Colmer was selected by the American Good Government Society, a patriotic, non-partisan, educational organization, for its George Washington Day Award, the first and only Mississippian so honored.

The Americans for Constitutional Action, a patriotic group, dedicated to the preservation of Constitutional government, recently presented the South Mississippi Representative a plaque, and a rating of 93% on his voting record.

Congressman Colmer has actively promoted the development of the ports and waterways of South Mississippi. In 1938 and later in 1947, by acts of Congress which he sponsored, the U. S. Army Engineers surveyed the Pascagoula River Basin comprising Chunky Creek, Chickasaw, Leaf and Pascagoula Rivers, for navigation and flood control. The Congressman is co-author of the act of Congress for the third survey of the Pat Harrison Waterway which is now being conducted by the U. S. Army Engineers. He is also the co-sponsor of the Pearl River Basin survey which is now underway.

Congressman Colmer is a self-made man. He worked his way through Gulfport High School and

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Every gardener knows human ingenuity cannot be substituted for the miracle of growth. God's secret is God's! But he knows, too, that wild growth means wilderness. Only cultivation makes a garden.

So he works with God. And the result is beauty, fruitfulness, abundance.

What the man with the green thumb practices in his back yard, the Church inspires across the whole expanse of human effort . . . the cultivation of souls . . . the realization of our spiritual potential. Working with God! What do YOU think life is meant to be?

Wilderness? Or the Garden of God?
Join us at Church next Sunday!

All who would like to attend are asked to contact their local Extension Service agents, announced by M. P. Potts, director of the Cooperative Extension Service.

We especially hope to honor here several of the men and women who were members of the Mississippi State 4-H Club during the 1907 to 1914 period," he said. "Those who were members a few years after that will be just as welcome, and will be recognized," he added.

This reunion will be a highlight of Mississippi's observance of the 50th Anniversary of the Cooperative Extension Service in its present form as established by the Smith-Lever Act of 1914. A feature of this Act is the cooperative financing and conduct of the Federal levels of government, Mississippi led in starting Extension education in agriculture and home economics, of which 4-H Club work is an important part. A Boys' Corn Club organized in Holmes County in 1907 by W. H. "Corn Club" Smith, who was then county superintendent of education, was the first Federally-sponsored rural youth organization. Other youth projects work that marked important steps toward 4-H soon followed.

The July 9 program will begin with registration, refreshments and get-acquainted, and a campus tour from 9:00 a. m. to noon. Director Bost said. A luncheon will honor the 1907-1914 alumni. The general assembly at which all groups will be recognized will be from 1:30 to 3:00 p. m. More about this assembly will be announced later, he said.

A wood industry obtains all of its raw materials in the state, and often its products are remanufactured in Mississippi. For example, nearly all of the shipments from a woodworking plant at Bruce, Mississippi, are to destinations in Mississippi to furniture plants, which add much additional value before shipping the finished products.

RETARDED CHILDREN ASSOCIATION CALLS ATTENTION TO ARTICLE

The Hancock County Retarded Children's Association calls attention to certain statistics published in the Mississippi Register, a Catholic weekly newspaper published in the State of Mississippi, which underlines the prevalence of mental retardation in the United States.

The article states that out of 100,000 births per year, it is estimated that 300 will be crippled by polio; 793 disabled by Yaws; heart disease, 350 handicapped by cerebral palsy, and 200 afflicted with blindness. Yet if we were to combine all of these rates, their total would equal only one half of the nation's most prevalent, costly and disabling handicaps, mental retardation. Approximately three thousand out of every 100,000 are mentally retarded.

Based on these figures, the article continues, there are 65,000 mentally retarded children and adults in the State of Mississippi. Most of these are living in their own homes and communities due to lack of adequate facilities.

The local Retarded Children's Association has been in Hancock County for nearly three years. Special classes are being conducted five days each week for these handicapped children. Mrs. Irma Baker of Pearlinton, Mississippi, has been principal of the school since its inception nearly three years ago.
